

Jungle Berry's 4 easy steps to determining ring size

1. Please make sure that this pdf document is printed out at 100%. DO NOT scale or shrink to fit paper or the ring sizes will not be correct.
2. Select a ring you already own that fits the intended finger. If you're buying a ring as a surprise gift for someone and you don't know their ring size, you can use one of their rings as a guide. Just don't let them catch you going through their jewellery collection looking for rings!
3. Place the ring over the circles below. The correct circle size should fit against the inside edge of the ring. If the ring falls between two sizes, order the larger size.
4. Once you've established which ring size you require, just return to the product page and select the appropriate ring size from the drop-down menu. It's as easy as that!
